AIforEverydayBusiness

INTRODUCTION

- Practical ways small businesses can use AI without becoming technology companies.
- Straightforward integration into real workflows.

THE FRAMEWORK

- Document Processing - Turn invoices, contracts and data into usable formats with minimal setup.
- Customer Communication - Personalise outreach at scale while maintaining human tone.
- Operations Automation - Reduce routine tasks that absorb time but add no value.

NEXT STEPS

- Start small. Find one workflow where AI saves an hour per day.
- That's a win before you build anything bigger.
